📁 PROFILE

I am seeking an opportunity to actively contribute to the growth of an organization in a dynamic environment that challenges my intellectual capabilities. As a Frontend Developer with a Bachelor's degree in Engineering and foundational knowledge in UI/UX design, I am eager to apply my technical skills and creativity to deliver impactful solutions while continuously learning and growing within the organization.

📁 PROJECTS

JAYBLUES TECHNOLOGIES

Led the development of a modern, responsive website for **Jayblues Technology**, focusing on a user-friendly interface and seamless navigation. Utilized **HTML, CSS, Bootstrap, JavaScript** to create a dynamic and engaging platform that enhanced brand visibility and user experience. **Project link:** <http://jayblues.com>

GTRAC MYSURU

Developed the **GTRAC** website using **HTML, CSS, Bootstrap** and **JavaScript** to create a clean, responsive design that improved user experience across all devices.

BINDHU TOURS&TRAVELS WEBSITE

Managed the website development for Bindhu Tours and Travels, ensuring a modern, responsive design that improved user engagement and enhanced the brand's online presence.

Designs: Hands on experience in tri-fold flyers and poster with figma, Adobe Photoshop.
